

IDEABOARD

STIJL

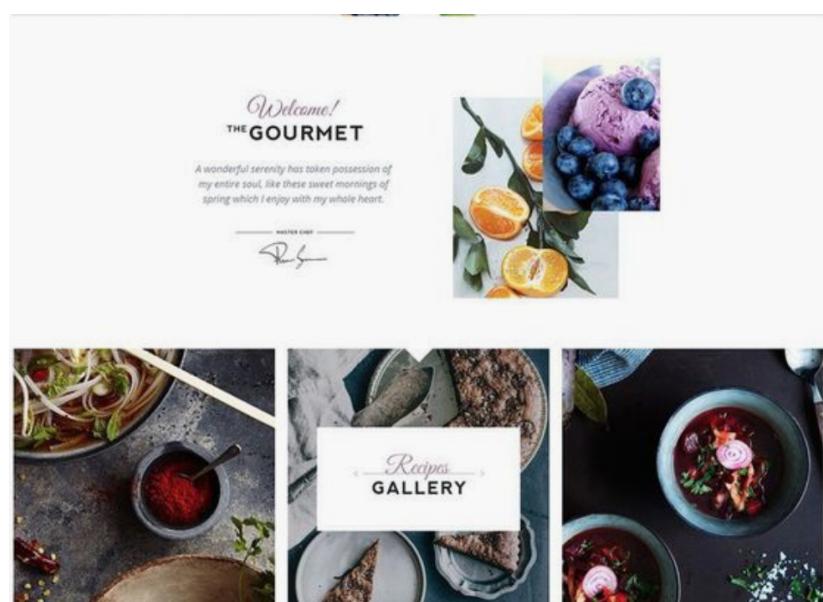

Het leuke aan deze website vind ik de omslagfoto. Ik had graag zo iets gemaakt met verschillende violen.

De kleur die verder door loopt ga ik proberen te verwerken in mijn design.

GALLERIJ

Het subtile pijltje vind ik zeer leuk.
Ook de gelijke vierkanten en de tussenruimte.
Daar boven op kan dan misschien wat uitleg over wie of wat je ziet wanneer je erover hoovert.
(zoals het witte kader hierboven)

ARTIESTEN

Om de artiesten duidelijk voor te stellen vind ik dit wel interessant.

Ik zou werken met een stramien en deze dan vullen met foto's van de artiesten.

Als ze over de foto hooveren kan de foto bijvoorbeeld wat lichter worden en is er informatie te zien. (Ik denk hier dan vooral aan waar, wanneer en hoelaat)

BUTTONS

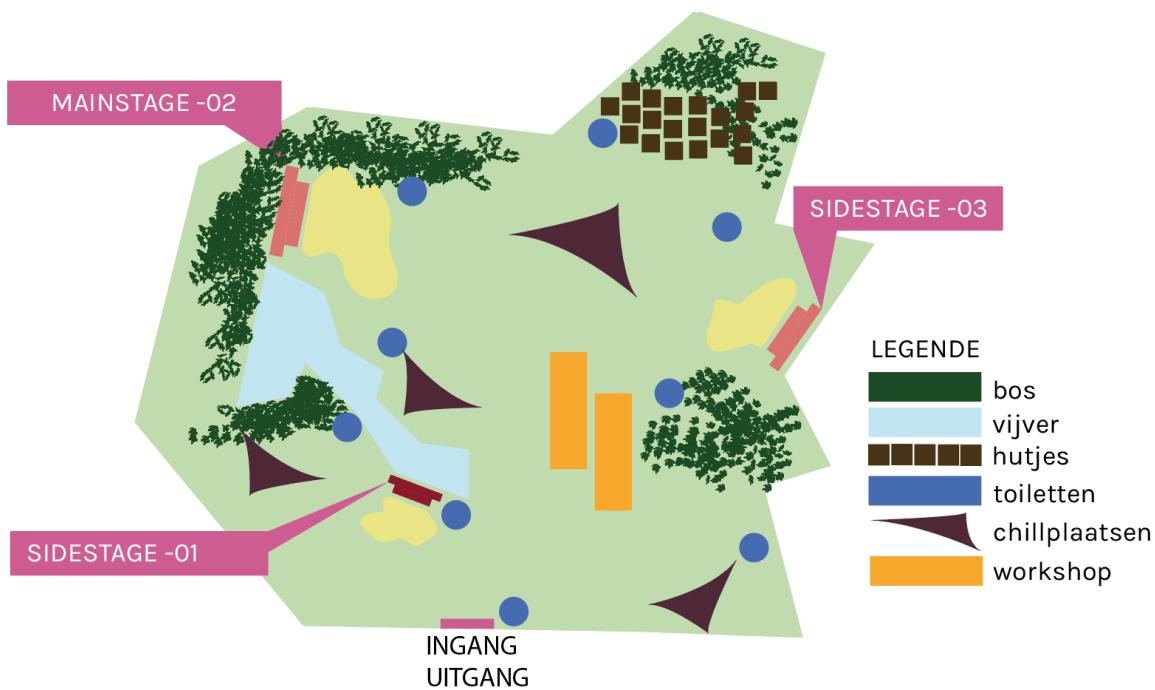

A collection of various 'Read More' button designs, each with a different shape and style. The buttons are arranged in three rows. The first row has four buttons: a standard rectangular one on the left, a rounded rectangular one in the middle, a trapezoidal one on the right, and a square one on the far right. The second row has four buttons: a button with a small triangular cutout on the top-left, a standard rectangular button in the middle, a button with a small triangular cutout on the bottom-left, and a standard rectangular button on the right. The third row has four buttons: a button with a small triangular cutout on the top-right, a standard rectangular button in the middle, a button with a small triangular cutout on the bottom-right, and a black button with a white outline and a small triangular cutout on the bottom-right, which is highlighted with a cursor icon.

De button in de rechterbovenhoek vind ik persoonlijk de leukste. De kleine hoekjes duiden aan dat het een klik-button is, eenmaal je erover hoovert worden de randen verder getrokken.
